For Immediate Release

St. Jude Medical Canada, Inc. Selects CardioComm's Upgrade Solutions For Key Users of PatientLog® Information Management System

VICTORIA, B.C., September 18, 2003 – CardioComm Solutions Inc. (TSX-V:CCG) (the "Company", "CardioComm"), is pleased to announce that it has been chosen by St. Jude Medical Canada, Inc., a subsidiary of U.S. based St. Jude Medical, Inc. as the preferred software manufacturer to provide the upgrade solution for its existing client base currently using the PatientLog® information management system for in-hospital pacemaker and ICD patient follow up software.

St. Jude Medical Canada has recommended CardioComm's Global ECG Management System GEMS™ desktop software system as the preferred upgrade for its PatientLog® customers. CardioComm's GEMS™ software solutions are already in use in over 20 accounts across Canada. CardioComm's Canadian distributor, Baylis Medical Inc., will market GEMS™ to these accounts with the support of St. Jude Medical Canada.

Stephen Martin, President & CEO of CardioComm, remarked "We are very pleased that such a productive outcome has emanated from our collective focus to bring value to customers. I am very pleased to announce that this has been achieved." Mr. Martin further added "This agreement with St. Jude Medical Canada is once again reflective of CardioComm's commitment to, and demonstrated success at, forming critical strategic relationships with such leaders in the industry that include Phillips Medical Systems, Instromedix, a division of Card Guard Technologies, Biomedical Systems Inc., Advanced Biosensor, Inc., Gateway Electronic Medical Management Systems and Meditel Srl"

*** About St. Jude Medical, Inc:**

St. Jude Medical, Inc. (www.sjm.com) is dedicated to the design, manufacture and distribution of innovative medical devices of the highest quality, offering physicians, patients and payers unmatched clinical performance and demonstrated economic value.

The Company's product portfolio includes pacemakers, implantable cardioverter defibrillators (ICDs), vascular closure devices, catheters, heart valves, and anastomotic connectors. St. Jude Medical Canada, Inc. is located in Mississauga, Ontario.

*** About CardioComm Solutions Inc:**

CardioComm's patented and proprietary technology is used in products for the recording, viewing, analyzing and storing of electrocardiograms (ECGs), for diagnosis and management of cardiac patients. CardioComm has achieved its technical goals of improved access and communication through the development of a real-time ECG viewer. CardioComm is the first company to provide a real-time means of viewing ECGs over a network (LAN, WAN or Internet). This tool enables

ECGs to be viewed and controlled live, by physicians, over a global virtual healthcare network. This technology is marketed as Global ECG Management System (GEMST[™]) and GlobalCardio[™]. CardioComm's software products have been cleared for sale in the United States by the U.S. Food and Drug Administration. The Company has both ISO 9001 and EN 46001 certifications.

On behalf of the Board of Directors
of CardioComm Solutions Inc.:

“Stephen Martin”

Stephen R. Martin, President & CEO
