

*FOR IMMEDIATE RELEASE*

## **CardioComm Solutions Inc. Wins Award for Software Innovative Excellence**

**VICTORIA, B.C., June 25, 2004** – CardioComm Solutions Inc. (TSX-V:CCG) (the "Company", "CardioComm"), is pleased to report that last evening at the historic Fairmont Empress Hotel in Victoria, B.C., it was presented with the Vancouver Island Advanced Technology Centre's ("VIATeC") *Award for Innovative Excellence – Software and Software Distribution*.

The Award is designed to recognize an organization that has researched and designed an innovative software or electronic service delivery that is expected to revolutionize a sector, method of business or way of life. CardioComm was nominated for GlobalCardio™ its celebrated web based cardiac patient management system.

CardioComm Solutions was a finalist along with a number of very innovative offerings from companies including; TecNet Canada Inc., Custom House Global Foreign Exchange, Genologics Life Sciences Software Inc. and Corporate Mentoring Solutions Inc.

Stephen Martin, CEO, accepted the award on behalf of the Company. Upon receiving the award he commented, in part, that "it is a great honour to accept this award on behalf of a very creative and hard driving team at CardioComm. I would also like to thank our valued customers and partners and of course the outstanding contributions of VIATeC to the local technology industry."

### **About VIATeC**

VIATeC is designed to facilitate the development of Vancouver Island as a global centre of excellence for advanced technology. VIATeC, which commenced operation in 1990, is a not-for-profit, industry-driven venture, which actively promotes and enhances the development of the advanced-technology industry on Vancouver Island.

### **CardioComm Solutions Inc:**

CardioComm's patented and proprietary technology is used in products for the recording, viewing, analyzing and storing of electrocardiograms (ECGs), for diagnosis and management of cardiac patients. The Company's products are sold worldwide through a combination of its external distribution network and its North American based sales team. CardioComm has achieved its technical goals of improved access and communication through the development of a real-time ECG viewer. CardioComm is the first company to provide a real-time means of viewing ECGs over a network (LAN, WAN or Internet). This tool enables ECGs to be viewed and controlled live, by physicians, over a global virtual healthcare network. This technology is marketed as Global ECG Management System (GEMS™) and GlobalCardio™. CardioComm's software products have been

cleared for sale in the United States by the U.S. Food and Drug Administration. The Company has earned the latest ISO 13485 certification.

On behalf of the Board of Directors  
of CardioComm Solutions Inc.:

“Stephen Martin”
