

## **CardioComm Solutions, Inc. Announces Closing of Shares for Debt Transaction**

**Victoria, B.C., October 6, 2008** – CardioComm Solutions, Inc. (TSX-V: EKG) (“CardioComm” or the “Company”) today announced that it has closed its previously announced shares for debt transaction under which \$75,000 in debt was settled in exchange for the issuance of 714,285 common shares of the Company to an insider of the Company for the provision of management services. The shares are subject to a four month hold period.

### **About CardioComm Solutions, Inc.**

CardioComm’s patented and proprietary technology is used in products for the recording, viewing, analyzing and storing of electrocardiograms (EKGs), for diagnosis and management of cardiac patients. The Company's products are sold worldwide through a combination of its external distribution network and its North American based sales team. CardioComm has achieved its technical goals of improved access and communication through the development of a real-time EKG viewer. CardioComm is the first company to provide a real-time means of viewing EKGs over a network (LAN, WAN or Internet). This tool enables EKGs to be viewed and controlled live, by physicians, over a global virtual healthcare network. This technology is marketed as Global EKG Management System (GEMS™) and GlobalCardio™. CardioComm's software products have been cleared for sale in the United States by the U.S. Food and Drug Administration. The Company has earned the latest ISO 13485 certification.
